Cloud Based Technology

Smart Video Door Phone opens up a new paradigm in videophone industry by providing a wireless network connection via internet to view and talk with a visitor from a smartphone. It also provides still image and video storing capabilities to upgrade security to the next level.

Onetouch welcomes you to the next generation of Smart Video Door Phone with built in Intercom and security.

Never Miss A
Visitor

With onetouch you will get instantly notified when visitor press the Doorbell. Then you can have a two way intercom with your visitor using the touch screen Video Door Phone or onetouch mobile app over wireless internet. Watch live feed of the onetouch Video Doorbell from anywhere in the world and it can also notify of the visitor on motion detection.

Stay Connected
With Your Family

Now you can talk to your family using the onetouch mobile app from anywhere in the world. Video Door Phone can be connected to multiple mobile devices for calling. You can also set the calling sequence of the Video Doorbell for family members.

Motion Alarm

REC

Allow Your Loved Ones
To Enter Easily

Onetouch Smart Video Door Phone can integrate with Digital Door Lock, so that you can unlock your door from onetouch mobile app.
It also sends alert to your Video Door Phone and mobile app, if someone tries to intrude your home.

Multi Zone
Alarm Panel

Onetouch SIP IP Video Door Phone has built in 8 zone smart alarm panel. One can integrate any conventional sensors like Gas Leak Detector, Motion Sensor or Magnetic Door Sensor to send live alarm. The alarm will alert on Video Door Phone and on your mobile app.

Onetouch
Mobile APP

At your single touch now you can achieve communication and security for your home. You can monitor and call to your outdoor bell through onetouch mobile app. Onetouch cloud server is secured, works with any router connection and hosted in India.
